## Human Impact on Water Comic Strip

### Assignment Description:

We read comic strips because they are funny and entertaining, but some comic strips can be used to tell a story. You will be explaining human impact on water by creating a comic strip based on the article you read about pollution. The comic strip below takes a science issue, climate change, and puts a comedic spin on it. This approach makes a serious subject much more light-hearted and entertaining to the general public.

Your comic strip doesn't necessarily have to be humorous, but it does have to accurately explain:

- HOW HUMANS AFFECT THE WATER
- WAYS TO HELP KEEP OUR WATER HEALTHY.

*Please cut this bottom portion out and glue it to the back of your project WHEN YOU ARE*

↓ **DONE AND ARE READY TO TURN IT IN!** ↓

Your comic strip MUST:

Total points: \_\_\_\_/25

- Be composed on at least 8 frames \_\_\_\_/5
- Include colored illustrations (hand drawn) in each frame depicting how humans affect water and how we can help keep our water healthy \_\_\_\_/10
- Creative Title and include dialogue bubble for the characters \_\_\_\_/2
  
- Feature short captions underneath it (in complete sentences) that provides details about what is occurring within each frame (so people reading it know what is going on) \_\_\_\_/5
- Be carefully cut from the original worksheet and glued (frames in order) to a construction paper backing. \_\_\_\_/3
